Changes since 15 October, checked on the Mukta Arts website.

For	Date	Build checked
Mukta Arts	16 October 2026	localhost:3000, branch main

Summary

Where it stands

The site-wide work is done: scrolling, loading errors and speed. Of the 19 page items left on 15 October, 3 are done, 7 are partly done and 8 have not changed yet.

3	7	8	1
Page items done in full	Partly done	Not changed yet	Waiting on Mukta Arts

Done across the site

01

Even scroll speed

Phones and tablets now glide like the mouse wheel, in-page jumps glide too, and the jitter from two smooth-scroll systems working against each other is gone.

02

Loading errors fixed

All eight pages load on localhost with no console errors, no failed requests and no broken images.

03

Lighter, faster home page

The 3D camera model is down from 19.9 MB to 3.1 MB. 3D scenes and the brand film stop working while off screen, and heavy models are loaded before you reach them.

04

Grain mostly removed

The grain effect is gone everywhere except the Whistling Woods milestones section.

Pages

Home and About

Item	What we found	Status
Home: stats strip	Back in the camera section. It shows 4000+ alumni and 57+ cinemas, not the agreed 4500 and 37.	Partly
Home: vertical bullets	Every vertical opens to its bullet points.	Done
Home: card photos	The Whistling Woods, Productions and Mukta A2 cards use your photos. The SGM card still uses the old GIF.	Partly
Home: other photos	The Subhash Ghai working still and the behind-the-scenes photos are in the project but not on any page yet.	Open
Home: brand film	Same video file, and no still image while it loads. It now pauses when off screen.	Open
Home: VN Films page	Removed from the menu. But the page still opens at /mukta-vn-films and is in the sitemap, and the VN Films card was also taken off Home, so its content is no longer on Home.	Partly
Home: long scrolls	The verticals section is re-paced so the cards move with the scroll. The section is now longer, though: about 8.5 screens, up from 7.	Partly
About: film labels	Labels such as "Cult Classic" are gone. Films show only name and year.	Done
About: top gallery	8 of 9 photos are in. One is switched off because its file name has a typo.	Partly
About: directors	All seven are in, with a new portrait frame that fits phones.	Done
About: timeline images	Your images for Founded, IPO, Whistling Woods and Mukta A2 are in the project but the timeline still shows the old ones.	Open

Pages

The other pages

Item	What we found	Status
Productions: broken characters	The intro still reads "cinemaâ€™s" and the film list "Joggerâ€™s Park".	Open
Productions: posters	No change to the film posters since 14 October.	Open
Whistling Woods: placeholder images	One milestone photo is replaced. The hero, the other milestones and the academic programs still load 19 stock images.	Partly
Whistling Woods: grain	Still on the milestones section.	Open
Mukta A2: theatre section	No change since 15 October.	Open
SGM Studios: visuals	The hero now uses a real photo, but it is the same Home photo as the Productions card, not an SGM visual. The showreel still has 6 stock images.	Partly
Submit Script: legal text	The section is built and stays hidden until the text arrives.	Waiting
Submit Script: placeholder image	Still a stock image.	Open
Subhash Ghai	Nothing was pending. The milestones heading now lines up under the site header.	Done

> Not checked in this pass: a test script submission to pitch@muktaarts.com, and a full phone and tablet review. Both are still on the handover checklist.

Next

What is left

Quick fixes first, then the photos. Everything here can be done by us except the legal text.

01

Quick fixes

Stats to 4500 alumni and 37 cinemas. Fix the broken characters on Productions. Fix the ninth About photo's file name. Remove the Whistling Woods grain.

02

Mukta VN Films

Put its content back on Home, redirect /mukta-vn-films to Home, and take it out of the sitemap.

03

Place your photos

Timeline images, the Home working still and behind-the-scenes photos, Productions posters, and the SGM card.

04

Replace stock images

Whistling Woods hero, milestones and programs, an SGM photo for its hero, the SGM showreel, and the Submit Script image.

05

Brand film and A2 theatres

A sharper export of the film with a still while it loads, and the design pass on the theatre section.

06

Handover checks

Shorten the verticals section, send a test submission, and review every page on a phone and a tablet.

Almost there.
