Fixes and feedback, checked on the Mukta Arts website.

For	Date	Build checked
Mukta Arts	15 October 2026	localhost:3000, branch fixes-for-development

Summary

Where it stands

Almost everything in the fixes brief and the content documents is on the site. Four things are still open, and two of them need the client to act.

29 of 31

Fixes from the development brief done in full

6 of 9

Points from the client's new feedback done

4

Items still open, listed on page 6

How we checked

01

Against every source

The fixes for development brief (31 fixes), the eight MAL website content documents and the client's nine new notes.

02

In the code

Copy, numbers, links, page order and the script submission set-up, read from the components and configuration.

03

On the running site

All eight pages loaded on localhost at 1512 and 375 wide. Titles, links, counters and layout measured in the browser. No sideways scroll on any page and no console errors.

Brief

Fixes 01 to 17: site, Home, About

No.	Fix	What we found	Status
01	Opening loader	Logo builds, then the tagline and hero. It plays on every visit to the home page, not once per session, and never on other pages.	Partial
02	Real logo in the header	Header uses HeadLogo.png, centred.	Done
03	Inner page entrances	Shared entrance on About, Subhash Ghai, Productions, WWI, A2, SGM and Submit Script heroes.	Done
04	Real page titles	Every page has its own title and description, for example "Subhash Ghai | Mukta Arts". Canonical links use the live domain.	Done
05	Footer social links	All four open in a new tab, now using the client's new URLs. No href="#" on any page.	Done
06	Reduced motion	Animations sit behind a prefers-reduced-motion check.	Done
07	SGM card text	Internal note gone, SGM line and intro in, no external link.	Done
08	Vertical names on one line	At 1512 every name sits on one line (59px, no wrap).	Done
09	Shorter intro paragraph	Five lines at 1512, centred.	Done
10	Hero tagline	"Telling stories across screens, classrooms and theatres." shows under the logo.	Done
11	Bullets under each vertical	Every vertical opens to its bullets, bold phrases as in the doc.	Done
12	View more on Productions	Links to /our-films.	Done
13	Rename two headings	Now "Subhash Ghai." and "Honours.", in reverse date order.	Done
14	About hero and counters	Hero animates; counters end on 50+, 4500+ and 37.	Done
15	Board above milestones, off blue	Order is hero, stats, Board, Milestones, Investor Relations. All light, no blue next to the footer.	Done
16	2025 milestone and Investor Relations	26 entries ending with SGM Studios Established. Investor Relations section with 19 links and documents.	Done
17	View Full Profile	Only Subhash Ghai links, to /subhash-ghai.	Done

Brief

Fixes 18 to 31: the other pages

No.	Fix	What we found	Status
18	Subhash Ghai hero entrance	Name, then the three counters, then the intro.	Done
19	Second section parallax	Photo parallax and line-by-line text reveal.	Done
20	Heading reveals on later panels	Panels reveal on scroll; the closing quote is unchanged.	Done
21	WWI intro and stats	WWI paragraph and six stats are back, no cinema text on the page.	Done
22	Visit Our Website	Opens whistlingwoods.net in a new tab.	Done
23	2006 and 2008 milestones	Timeline runs 2006, 2008, 2010 and on to 2026.	Done
24	Academic schools redesign	7 schools, then the WWI and IIM Mumbai MBA and the Short Course Unit, each revealing as it enters.	Done
25	Remove film filters	No filter tabs, the full list shows.	Done
26	Films in release order	Sorted by year. Years still to be confirmed by the client.	Done
27	SGM showreel	Images are 1058px wide at 1512, with drag and previous and next arrows.	Done
28	Office section on the form grid	Map sits in the label column and lines up with the form above.	Done
29	Send submissions and test	Form emails pitch@muktaarts.com with both files attached and shows a success message. A full test email has not been sent yet, and the same email settings must be added on Vercel.	Partial
30	New animations on a phone	At 375 all eight pages load into readable text with no sideways scroll.	Done
31	Long names on phones	Names use balanced wrapping below 1024, so no word sits alone.	Done

Feedback

The client's nine new notes

No.	Note	What we found	Status
1	Four social profiles	Instagram, LinkedIn, YouTube and Facebook use the new URLs in the footer and on Submit Script.	Done
2	Legal disclaimer	The section is built and stays hidden until the client sends the text.	Waiting
3	Submission email	Submissions go to pitch@muktaarts.com.	Done
4	Mukta VN Films out as a page	The VN Films text stays on the home page as asked. But the /mukta-vn-films page still exists, is listed under The Ecosystem in the menu, and the home page View more still links to it. The "Manage XX screens" line is replaced by "37 Mukta A2 cinemas, and growing."	Open
5	One set of numbers	4500+ alumni and 1300+ students on Home, About and WWI. 37 Mukta A2 cinemas on Home, About and the A2 page. 45+ years on Productions.	Done
6	Konrak spelling	"Konrak Theatre" on Home and the A2 list. No "Konark" left.	Done
7	Highlight strip	Kept, with the six names from the content doc.	Done
8	Timeline descriptions	Films show only title and year. Only founding, IPO, WWI, Mukta A2 and SGM carry a description.	Done
9	Mukta A2 theatres design	Still a text list by category, now with tabs and counts. It does not yet answer "too basic".	Open

Next

What is left

Two are ours, one waits on Mukta Arts and one we finish together.

01

Take Mukta VN Films out as a page Us

Remove it from the menu, the home View more and the sitemap, and redirect /mukta-vn-films to the home page. Keep its text on the home page.

02

Redesign the Mukta A2 theatres section Us

Move beyond a list: for example a map of India with the 33 properties plotted, or photo cards per property, with the category under each theatre name.

03

Legal disclaimer for Submit Script Mukta Arts

The slot is ready. It goes live as soon as the text arrives.

04

A live test submission Both

Add the email settings on Vercel, send one full submission with both files, and confirm it reaches pitch@muktaarts.com.

> Smaller points: the home loader replays on each home visit rather than once per session, and film years on Productions still need the client's confirmation.

Four to go.
