Re-check results, on the Mukta Arts website.

For	Date	Build checked
Mukta Arts	16 October 2026	localhost:3000, branch main

Summary

Where it stands

We checked every item still open in the 16 October re-check on all eight pages, without changing any code. Of 23 items, 15 are done and only one is still open.

15	6	1	1
Done in full	Partly done	Still open	To check by eye

Across all eight pages

01

No errors

No console errors, no failed requests and no broken images on any page.

02

No stock or borrowed images

No page loads anything from Unsplash or muktaarts.com, and nothing uses the old /img/last folder.

03

Not live yet

All of today's work is on this computer only: 21 changed files are not committed, so mukta-arts-v1.vercel.app does not show them until they are committed and deployed.

Pages

Site-wide and Home

Site-wide

Item	What we found	Status
Grain	Gone everywhere, Whistling Woods included.	Done
3D logo when minimised	It spins at the top of Home and stands still once docked in the corner: no pixel changed in 1.5 seconds.	Done
Scroll pacing	Home is about 21 screens long, the verticals section about 8.6. Two pinned sections remain: the About timeline (12 screens) and Subhash Ghai (5.4). Whether they slow enough to read needs a human eye.	Check by eye

Home

Stats strip	Reads 45+, 50+, 35, 4500+ Alumni and 37 Mukta A2 Cinemas.	Done
Vertical bullets	Whistling Woods opens to 6 points, Productions 5, Mukta A2 4. SGM opens to its two paragraphs.	Done
Mukta VN Films	The separate page is gone (404) and out of the sitemap. The VN card is still not on Home.	Partly
Client photos	SG working still, SG_0044, SG_0054, SG_0067 and TOPIWALA are in. The VN film strip photo is not in the project.	Partly
SGM image	A local image now, not the muktaarts.com GIF.	Done
Honours	Ten awards, ten different images, no trophy repeats.	Done
Brand film	Has a poster frame and less zoom, so it is sharper. The file is still 1280 by 720 and 18.8 MB.	Partly

Pages

About, Subhash Ghai and Productions

About

Item	What we found	Status
Board photos	All seven directors show their own photo.	Done
Timeline events	Founded, IPO, Whistling Woods and Mukta A2 use your images; SGM uses the local image.	Done
Timeline posters	17 films use your posters. Gautam Govinda, Krodhi, Vidhaata and Meri Jung have none in the folder.	Partly
Hero gallery	All 9 photos, SG_0123 included.	Done

Subhash Ghai

Autograph	The real signature shows in both places that had a typed one.	Done

Mukta Arts Productions

Broken characters	The intro reads "cinema's" and the film reads "Jogger's Park". No broken characters left.	Done
Film posters	46 of 52 films use your posters, compressed. Kalicharan, Vishwanath, Gautam Govinda, Krodhi, Vidhaata and Meri Jung have none in the folder.	Done

Pages

The other pages

Item	What we found	Status
Whistling Woods: quotes	All 16 quotes are in, under "Voices from the Industry". They replace the University Affiliation section; the student gallery stays.	Done
Whistling Woods: University Affiliation	The section and its three Unsplash images are gone.	Done
Whistling Woods: gallery	Uses your photos from the WW folder; nothing from /img/last.	Done
Mukta A2 Cinemas	Loads clean, nothing was pending.	Done
SGM: showreel	Nothing loads from Unsplash now, but the six frames are still the same stock photos, saved locally. Your 19 SGM visuals were not in the project or on muktaarts.com.	Partly
Submit Script: legal text	Not on the page. The section appears as soon as the text is added.	Open
Submit Script: test	One test sent on 16 October at 21:38, marked "TEST, please ignore". The server confirmed it was sent. Someone needs to see it in the pitch@muktaarts.com inbox.	Partly

Next

What is left

Most of what remains is waiting on files or a decision, not on code.

01

Files from Mukta Arts

The VN film strip photo, the 19 SGM visuals, posters for the six films above, the legal disclaimer text, and a sharper master of the brand film.

02

Two decisions

Whether the Mukta VN Films card goes back on Home. And whether the quotes should sit in place of the student gallery, as the re-check asked, rather than where they are now.

03

Two checks by a person

Find the test email in the pitch@muktaarts.com inbox, and scroll the long sections to judge the pace.

04

Publish

Commit and deploy the 21 changed files so the Vercel site matches localhost.

Nearly there.
